To: All Refineries in the State of Louisiana  
Re: Waiver of the Change in RVP from March to April 2020 required by LAC 7-XXXV-§303  

Because the Corvid-19 virus has created some supply side problems for oil refineries, I will waive the regulations that require a change in Reid Vapor Pressure (RVP) from 13.5 to 11.5 on April 1st of 2020 (LAC 7.XXXV.3§303). Therefore refineries may continue to sell gasoline with an RVP of 13.5 until May 1st of 2020.

Mike Strain, DVM  
Commissioner of the Department of Agriculture and Forestry
